

# The difference you've been looking for is right here!

## Smarter image processing, automatically

Some scanners require you to purchase and install software to process images post-scan to access features like deskew, rotate, crop, delete blank pages, save as PDF, etc. You're paying more, and you're adding steps and time to your scanning process. With Kodak, our scanners come equipped with the right software and tools you need to make scanning easy, high quality and complete. **Kodak** Scanners deliver the ultimate in simplicity and functionality.

### Perfect Page Scanning

Perfect Page is the foundation of all **Kodak** iSeries Scanners. It's automatically installed with your scanner software. Perfect Page enables easy setup and configuration of all image processing settings, so you can output exceptional images, even from the most difficult and challenging documents.

### Virtual ReScan Software from Kofax (VRS)

When your application requires **VirtualReScan (VRS)** Software technology, selected **Kodak** Scanners come with **VRS** (or it's integrated into the hardware of the scanner). This means you get image enhancement features and error resolution tools—including more precise image cropping and advanced color management — to improve image quality on documents scanned in color, without sacrificing speed.

### Smart Touch Functionality

With the touch of a button you can scan and file documents, send e-mails or start up other applications for your documents. With up to nine different settings, you can organize your documents by type or destination. Simplify complex tasks and make them "one-button easy." Create PDFs, **Microsoft Word** Documents, TIFF or JPEG images. ALL this powerful software is built right into the scanner.

### Kodak Capture Desktop Software

**Kodak** Capture Desktop Software is an intuitive and easy-to-use capture software application, specifically designed to make processing and sharing scanned documents simple. With **Kodak** Capture Desktop Software, you'll benefit from "out of the box" productivity and have the immediate ability to capture, edit and output anything from single documents to larger batches in distributed or departmental environments.

## World-class Kodak Service & Support

Protect your investments, assure ongoing productivity and gain peace-of-mind with world-class service from Kodak. It's an unparalleled array of end-to-end solutions to let you more effectively manage and maintain your equipment and business processes. Our expertise extends well beyond the **Kodak** Document Scanners portfolio to provide service and support for scanners and document imaging technologies offered by numerous other manufacturers.

<b>Model</b> Kodak ScanMate i1120 Scanner	<b>Kodak Sidekick 1400u Scanner</b>	<b>Kodak i1210/i1220 Plus Scanners</b>	<b>Kodak i1310/i1320 Plus Scanners</b>	<b>Kodak Trüper 3210/3610 Scanners</b>	<b>Kodak i1405/i1420/i1440* Scanners</b>	For use with the Scan Station 500, i1200 Plus, i1300 Plus and i1400 Series Scanners. With the tethered design, users gain the flexibility to position the flatbed in a location away from the base unit. For example, placement can be on a shelf — an ideal solution where desktop space is limited. A3 and A4 sized tethered flatbeds allow for the scanning of books and bound documents, or fragile items.
